

# Drive of My Life

I would drive all night  
Just to see you  
I'd pick a fight  
For a night or two  
I see your face in the scary winter  
These highway lines have been clearer  
It's a long long drive  
But I've Never felt more alive

I'm on drive of my life  
And I want you by my side  
I'm on the drive of my life  
And I'm ready for this ride

The cold winter snow keeps on falling  
And I can't make you feel like I am stalling  
Oh these mountains seem to be a little darker  
And it makes this that much harder

I'm on drive of my life  
And I want you by my side  
I'm on the drive of my life  
And I'm ready to take this ride

I've done this now a dozen times  
But loving you was not a crime  
I will find my way to you  
This highway will see me through
