

Find Your Serenity

I Try my best to improvise
And take it all in as it come
Cant let the little things linger in your mind
Don't wanna waste any more of my time

I am here for this moment
Cant let it slip away
Gonna stop worrying about all the things I cant change
Breath every breathe
It'll never be too late
Find your serenity (2x)

The sun is shining on my face
Breathing in the wide open air
I ain't got no right to complain
We all hurt our fair share

I am here for this moment
Cant let it slip away
Gunna stop worrying about all the things I cant change
Breath every breathe
It'll never be too late
Find your serenity (2x)

Let It Go (4x)
