

Neverland

Somewhere above the clouds
Lies you and me with our feet off the ground
Our hearts in our hands
nothing to fear in loves neverland

But it you come inside my mind
time slowly driftin away
I'll show you what I see
Make you believe I can't stay
When we came on to this mystical mountain
So high we tend to forget

Tryin so hard to escape the mainland
The mystery awaits come take my hand
Hopin to fly someplace it wouldn't be so hard
Only to find
a trail of broken hearts

But it you come inside my mind
time slowly driftin away
I'll show you what I see
Make you believe I can't stay
When we came on to this mystical mountain
So high we tend to forget

Ohh - Ohh - Ohh
