

The Other Side

Take A look around
When did it start to fade
The neon lights are blinding
And sometimes, we need reminding
To look the other way

Follow me into the sun
I can teach you how to run
Free is all we really wanna be
Escape the gravity inside those lines
Just keep an open mind
Venture on over to the other side

I am not the same
And either are you
You are here
because you no longer sleep
You are awake
WE are awake

Follow me into the sun
I can teach you how to run
Free is all we really wanna be
Escape the gravity inside those lines
Just keep an open Mind
Venture on over to the other side
