

Don't Let Me Down

Face to face I know you could do me no wrong
But when I turned my back my trust was long long gone
I always knew that I had to put my trust in you
But you always let your ego cut right through

I shoulda seen it coming
For a long long time
I just kept on denying
But the truth came out

Don't let me down
Just like you did before
Don't let me down
Not gunna take it no more

I should have known better, but we were just kids
Now its easy to see all the things that I missed
I always hoped that one day I would see a change
But its not up to me to re-arrange

I shoulda seen it coming
For a long long time
I just kept on denying
But the truth came out

Don't let me down
Just like you did before
Don't let me down
Not gunna take it no more
