

Hey Hurrah

Lost tonight
On another flight
Hey Hurrah X2
Met a girl
From another world
Hey Hurrah X2

Our souls collided way up in the sky
Guided by nothing that I can describe
Through the clouds we fly
on an endless ride
to find the light
Intergalactic love
to the moon and above,
we found the light

Left a trail
True love will prevail
Hey Hurrah X2
Kindred hearts
Yea right from the start
Hey Hurrah X2

Our souls collided way up in the sky
Guided by nothing that I can describe
Through the clouds we fly
on an endless ride
to find the light
Intergalactic love
to the moon and above,
we found the light

Lost tonight
On another flight
Hey Hurrah X8
