

# Won't Forget Your Love

I looked into her eyes again today  
While she danced around as the sun went down I can't seem to  
look away  
Will this feeling ever change  
Or will the sparks that fly seem to shine another day

What good did I do?  
To deserve such a beautiful soul like you  
A love like this has gotta last  
No I'm not gunna let a feeling like this pass

No I won't forget your love  
Those baby blue eyes that light up my life  
No I won't forget your love  
Yeah you look so fine

No I won't forget your love  
Yeah those baby blue eyes that light up my life  
No I won't forget your love
